Art Unit: 3679

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Election/Restrictions

2. Claims 8-26 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 17, 2005.

Drawings

3. The replacement drawings filed March 31, 2006 are objected because:
 - a. In Fig. 3A, the lead lines for reference numerals 44 & 46 each indicate the same feature, but each numeral is supposed to identify a feature different from that of the other.
 - b. In Fig. 3A, the presumed lead line for reference numeral 39 originates at numeral 44, instead of numeral 39.
 - c. The first, second, and third diameters described in paragraph 028 and recited in claim 1 are not indicated in the drawings.

Specification

4. The disclosure is objected to because page 5, line 17, as amended, includes the nonsensical statement, "a third diameter 37 that is smaller than the second diameter [37]". See line 12 that has been amended to include the term, "a second diameter 37".

Claim Rejections - 35 USC § 112

5. Claims 1-3, 5-7 & 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. Claim 1, line 8 recites the limitation, "removal of the stakes [44] producing a space [39]". However, Fig. 3A (as replaced March 31, 2006) shows the space 39 coexisting with the stakes 44. As such, it is not clear how the space 39 is produced by the removal of the stakes 44.

b. Claim 6 recites the limitation "the annular seat" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

6. Claims 1 & 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Girquis, US 3,881,324 (see particularly the attached annotated Fig. 2). Girquis shows a universal joint comprising: a yoke leg 6 with an aperture; a bearing cup 4; a retention member; and a spacer. Fig. 2 shows the aperture of the yoke leg comprises: an annular groove in which resides the retention member; a first diameter (the diameter of the portion of the annular groove occupied by the retention member); a second diameter (the diameter of the portion of the annular groove not occupied by the retention member) inboard of the first diameter; an inboard radial wall having a third diameter that is smaller than the second diameter; an annular seat (the inboard lateral surface of the annular groove); and a space below the annular seat in which resides the spacer.

7. Claims 1 & 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 60-95221. Figs. 1 & 7 show a universal joint comprising all the limitations of the claims.

Allowable Subject Matter

8. Claims 2, 3 & 27 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

9. Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new grounds of rejection.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3679

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
